2023 CONSUMER PRICE LIST

Turnout Clothing, Emergency Response Clothing, Proximity
Clothing

Email orders to:
customerservice@firedex.com

Remit payment to: Fire-Dex, LLC
Dept 781422
P.O. BOX 78000
Detroit, MI 48278-1422

Order Submittal:

- Orders must be sent via email or submitted through the FireWriter2 system.
- All orders must have a purchase order to be processed.
- All orders will be acknowledged via email. **No response to an acknowledgement will be viewed as an acceptance of the order. The sale will be final.**

Terms & Conditions:

Payment terms are NET 30 days from date of shipment. Accounts that continually exceed these terms may be placed on cash in advance status. Any invoice not paid within 30 days will be subject to 1.5% interest per month (18% annually).

F.O.B. Shipping Point

Minimum Order:

\$250.00 – A \$25.00 service charge will be charged for orders less than minimum. Garment related accessories such as name patches, miscellaneous options, or suspenders will not be subject to this charge. Minimum order fee also does not apply to TECGEN51.

Returns:

As Fire-Dex® does not maintain inventory of finished product, items purchased are non-returnable. Goods will not be accepted without a valid return goods authorization number (RGA#). RGAs are obtainable from the Customer Service Representative. Returns are not permitted on any orders of gear over 90 days old. Gear must be from current production standards. All returned goods must be returned clean (in accordance with guidelines of NFPA 1500), to facilitate inspection for proper handling. Goods that have not been cleaned will be sent back freight collect. Authorized returns of goods which came from our stock, will be charged a 25% restocking charge unless found defective in material or workmanship under warranty. For the TECGEN51 Return Policy, please see the TECGEN51 page at the end of this Price List.

WARRANTY:

Fire-Dex, LLC warrants its protective clothing products to be free from defects in workmanship for the serviceable life of the products when used by appropriately trained personnel following proper fire fighting procedures and when the product's warning, use and care instructions are followed. Some fabrics and materials Fire-Dex uses have warranties provided by the material manufacturers including, but not limited to W.L. Gore and Stedfast. Please refer to those warranties prior to filing a warranty claim with Fire-Dex. Any material warranty claims will be handled through the material manufacturer.

Inasmuch as Fire-Dex has no control over the manner or way in which our product is used after it leaves our plant, Fire-Dex, cannot be responsible by warranty or otherwise, for results or effect of its use. Each user should make their own tests (preferably by a qualified safety engineer) to determine the suitability of our product for his particular application.

WARNING FOR TURNOUT CLOTHING: Protective clothing systems are for conventional structural fire fighting only to protect the body (excluding head, hands & feet) against temperature extremes, steam, hot water and particles. For effective protection, both coat and pant must be worn. This clothing is not proximity or entry gear. It is not designed to be kept in direct contact with flames or molten metal, or for protection against hazardous chemical, biological or radiological agents. User must have the background necessary to select correct clothing for the job and use it safely. WHEN PROPERLY CONFIGURED, FIRE-DEX® CLOTHING MEETS OR EXCEEDS CURRENT NFPA AND OSHA REQUIREMENTS.

Prices and terms subject to change without notice or obligation.

Possession of this price list does not constitute an offer by FIRE-DEX, LLC to sell to the holder. Sales will be made only to previously qualified and accepted distributors. FIRE-DEX, LLC reserves the right to revoke distributorship at any time.

FXR TURNOUTS (COAT & PANT)

The items on this page are required for NFPA 1971 compliant coats and pants.

FXR turnout is specifically designed to minimize firefighter stress and fatigue through Active Posture Design™ (APD).

Lettering Guidelines

In order to assist you with lettering on your gear, we have developed this lettering chart to help service as a guideline when ordering lettering. The chart highlights the position which corresponds to the numbers listed in FireWriter. Lettering and patch restriction are based on the size of the coat, addition of DexFlex back, and name spelling.

Please Note

**An empty space counts as 1 letter

**The bigger the size, the smaller the amount of space between the top and bottom trim

High Visibility Trim Rule No lettering above top trim unless customer understands that the upper, horizontal trim bar will be lowered to accommodate. In the case of Project Fires, the lettering departments will have to shorten the vertical bars to accommodate the lettering.

High Visibility and Project Fires Rule The maximum amount of letters to fit BETWEEN the vertical bars on both styles of trim are: a) 3" letters - 6 letters or b) 2" letters - 8 letters

Lettering Patch Guidelines	Maximum	Maximum
Options	2" Letters	3" Letters
XL61, XL10, XL58, XL59, XL63 (hanging patch)	14	11
XL70 (1 row patch) - 4"x14"	11	9
XL50 (1 row patch) - 4"x14"	11	8
XL56 or XL76 (2 row patch) *Cannot be used below top trim on 28" coat - 8"x14"	11 per row	8 per row
XL57 or XL77 (3 row patch) *Cannot be used below top trim on 28" coat - 12"x14"	11 per row	8 per row

SIZING INFORMATION:

Turnout Coats/Jackets: Available in Even Chest Sizes Only, 32-74 (measure loosely around body just under the arms). If ordering a 40" chest coat, ours will measure 48" to 50" on the exterior of the coat. This allows for station wear or other clothing to be worn underneath. Standard sleeve lengths (measured from the base of the neck, out over the shoulder and down the arm to the desired length) vary ($\pm \frac{1}{2}$ " Sewing Tolerances) with coat sizes on the chart below.

Pants: Available in Even Waist Sizes Only, 28 - 68. (Measure loosely over station wear at point on body where pant waist will be worn. DO NOT add to this measurement or assume sizing comparable with competitors' gear.) If ordering size 36" waist, ours measures 36" on the interior of the waist band. Standard inseam for all sizes is 29"; custom inseams are available with no additional charge.

Fire-Dex also offers women's size pants. When ordering women's sizes include hip measurement.

Turnout Reference Guide

Turnout Jacket Sizing			Turnout Pant Sizing	
Size	Chest	Std. Sleeve	Size	Waist

Fire-Dex® Measurement Guide

Fire-Dex® Sizing Gear is the most accurate way to measure a person. In the event that sizing gear is not available, follow the instructions below. Use the right side of the guide to mark sizes and not person's data.

- All measurements are taken with arms at sides and at an "at ease" stance.
- All measurements are taken with stationwear on.

CHEST – Measure at chest, just below armpits. Bigger is usually better for fit and comfort. Even numbered sizes only, i.e. 32", 34", etc.

*If using a Fire-Dex Sizing Chart for general sizing, we manufacture the larger of the two numbers in each category.

COAT LENGTH – NFPA requires the coat and pant to have at least a 2" overlap of all layers so there is no gaping of the total thermal protection when the protective garments are worn. Measure from the center of the collar down the spine, stopping at the bottom of the belt line. Round up to nearest whole inch. As a rule, adding 8" to this measurement for FX-M & FX-A will give you a suitable coverage length. Add 7" for FX-R.

BELLY – If belly measurement is larger than chest, please include this number as the jacket will require a BEG gusset. Measure around the largest part of the belly.

SLEEVE - Measure sleeve lengths from the middle of the back, from the vertebrae at the base of the neck, over the shoulder to the point on the hand that is required (generally done to the thumb crotch). Longer is usually better for protection. Do not bend arm.

*On applicable gear, if a sleeve length is not specified, the standard sleeve length will be shipped.

WAIST - Waist is measured at point where pant will be worn. Bigger is usually better for fit and comfort. The inside of the pants, at the waist, will measure the dimension you place on the order. Even numbered sizes only, i.e. 32", 34", etc.

* If using a Fire-Dex Sizing Chart for general sizing, we manufacture the larger of the two numbers in each category

INSEAM - Inseam is measured from the crotch to the point on the foot that is required. *On applicable gear, if inseam is not specified, the standard inseam will be shipped.

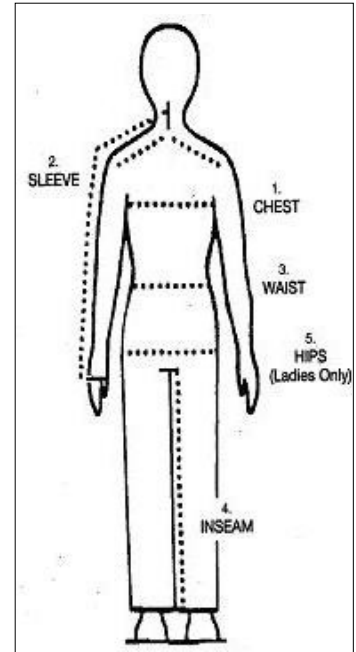

SUSPENDERS - Suspenders are measured from the rear suspender attachment point over the top of the shoulder to the front suspender attachment point. Correct rise pants and rear bib size need to be used.

HIPS - Measure hips at widest point. If the hips are greater in dimension than the waist we can accommodate with a wider thigh area. As a rule, a 4"-6" difference would require a hip modification.
