## ABOUT US

Since 1982, Specialty Vehicles has been the premier provider of the most diversified line of people moving vehicles in the world, including specialty trolleys, trams, electric shuttles and buses.

In addition to both new and used vehicle sales, Specialty Vehicles also provides vehicle service, maintenance, refurbishment and parts sales from their Southern Nevada location.

Each customer is important. Every vehicle sold is unique.

Specialty Vehicles prides itself on top-notch customer service from the very start, with determining the best suited vehicles for a property, to operations training, warranty assistance and long-term parts support.

We understand that each customer has different needs and requirements for their vehicle application. Location, terrain, number of passengers, climate, fuel preference, advertising needs, and driver's requirements are just a few of the many considerations when purchasing the best vehicle for a property.

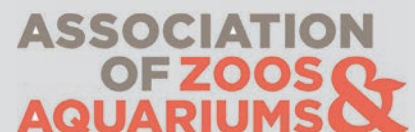

We have the flexibility and resources to work with a client no matter how large or small, and with every vehicle delivered, our customer's satisfaction is paramount.

As the domestic and international need for people moving equipment continues to grow, Specialty Vehicles remains steadfast in their goal of offering the highest quality products and support in the industry.

## PROFESSIONAL ASSOCIATIONS

INTERNATIONAL ASSOCIATION OF FAIRS & EXPOSITIONS

## CUSTOMER SERVICE

Our dedicated team of leadership management and skilled workforce are prepared to accommodate and meet the vehicle needs of each and every customer, at every level of the purchase process.

We offer timely customer support and provide parts, retrofitting and refurbishment services. Warranty assistance is available on all of our new vehicles after purchase and delivery.

## MANUFACTURING

Over the last decade, Specialty Vehicles has discovered different needs in the people moving industry and is now manufacturing the Safari Tram, Atlas Tram and the Cruiser Tram.

Our skilled workforce constructs with top quality materials and products to assemble superior vehicles.
