3.8M Progress

One-Time Fees

Type	Item	Qty	Price	Total
Heavy Wash / Heavy Wash Only	HWP38 - PROG HDG TROLLEY VERT BRUSHES - WASH HEIGHT 12' 2" - 1/25 The Istobal Heavy Wash Progress is a robust cube-shaped structure manufactured in heavy-duty hot-dipped galvanized steel. The Progress design is strong, industrial, and reliable to guarantee an efficient wash for fleets or commercial vehicles. The brush system of the Progress is amperage sensing, electrically driven and controlled, and when combined with the optional contouring horizontal brush provides a premium quality wash with front and rear overlap (cross-over) capabilities.	1	\$150,068.00	\$150,068.00

The drive motors of the Progress are VFD driven for variable speed of each pass. The Progress also includes programmable functions for panoramic mirrors and other obstacles. The Progress features an icon driven LED touch screen control system for wash creation, modification, and troubleshooting. It offers a wide selection of options to add high pressure cleaning on the sides and/or top for wash programs that may need both friction and high-pressure cleaning. The combination machine has friction, touch free, and hybrid wash capability. The Progress is activated by vehicle position detection using photo eyes and includes an onboard red/green entry positioner. Includes stainless steel motors and bearings. The Progress comes standard with 78'-8" (24M) of travel rails.

Machine Height 15' 4" / Wash Height 12' 2"

ISTOBAL (Code: C-BASHWPGH1TR)

Base Price

TRAVEL RAILS AND ENERGY CHAIN CONNECTION LENGTH: GALVANIZED RAILS 78'-8" (24M) AND E-CHAIN(INCLUDED IN BASE) (C-SIT112H)
