## TEXAS COMMISSION ON ENVIRONMENTAL QUALITY

## COMBINED

## NOTICE OF RECEIPT OF APPLICATION AND INTENT TO OBTAIN WATER QUALITY PERMIT AMENDMENT

AND

## NOTICE OF APPLICATION AND PRELIMINARY DECISION FOR TPDES PERMIT FOR INDUSTRIAL WASTEWATER

AMENDMENT

PERMIT NO. WQ0000662000

**APPLICATION AND PRELIMINARY DECISION.** Referra Corporation and 1503 Haden Road, LLC, 1503 Haden Road, Houston, Texas 77015, who operates Referra Corporation, a polyethylene terephthalate (PET) recycling facility, has applied to the Texas Commission on Environmental Quality (TCEQ) for a major amendment of Texas Pollutant Discharge Elimination System (TPDES) Permit No. WQ0000662000 to remove parameters and effluent limitations related to process wastewater subject to 40 Code of Federal Regulations (CFR) Part 414; remove conditions related to process wastewater subject to 40 CFR Part 414; remove whole effluent toxicity (WET) testing conditions; and authorize the discharge of process wastewater (PET plastic cleaning, scrubber water, non-routine cleanout process tanks, and laboratory sinks), utility wastewater (boiler blowdown/steam condensate, non-contact cooling water, and fire water from system maintenance), process area stormwater and stormwater via Outfall 001 at a daily average flow of 0.10 MGD. The TCEQ received this application on February 21, 2023.

This combined notice has been issued to clarify the authorized discharge description stated in the NORI (moving existing wastestreams under existing process wastewater and utility wastewater).

The facility is located at 1503 Haden Road, near the City of Houston, Harris County, Texas 77015. This link to an electronic map of the site or facility's general location is provided as a public courtesy and is not part of the application or notice. For exact location, refer to the application: <https://gisweb.tceq.texas.gov/LocationMapper/?marker=-25.186944,29.766388&level=18>.

The effluent is discharged to Greens Bayou which is a portion of the Houston Ship Channel Tidal in Segment No. 1006 of the San Jacinto River Basin. The designated uses for Segment No. 1006 are navigation and industrial water supply.

In accordance with Title 30 Texas Administrative Code Section 307.5 and TCEQ's Procedures to Implement the Texas Surface Water Quality Standards (June 2010), an antidegradation review of the receiving waters was performed. A Tier 1 antidegradation review has preliminary determined that existing water quality uses will not be impaired by this permit action. Numerical and narrative criteria to protect existing uses will be maintained. A Tier 2 review is not required because no intermediate, high or exceptional aquatic-life-use water bodies have been identified in the discharge route. Existing uses will be maintained and protected. The preliminary determination can be reexamined and may be modified if new information is received.

The TCEQ Executive Director reviewed this action for consistency with the Texas Coastal Management Program (CMP) goals and policies in accordance with the regulations of the General Land Office and has determined that the action is consistent with the applicable CMP goals and policies.

The TCEQ Executive Director has completed the technical review of the application and prepared a draft permit. The draft permit, if approved, would establish the conditions under which the facility must operate. The Executive Director has made a preliminary decision that this permit, if issued, meets all statutory and regulatory requirements. The permit application, Executive Director's preliminary decision, and draft permit are available for viewing and copying at Jacinto City Library, 921 Akron Street, Jacinto City, Texas.

**PUBLIC COMMENT / PUBLIC MEETING.** You may submit public comments or request a public meeting about this application. The purpose of a public meeting is to provide the opportunity to submit written or oral comment or to ask questions about the application. Generally, the TCEQ will hold a public meeting if the Executive Director determines that there is a significant degree of public interest in the application or if requested by a local legislator. A public meeting is not a contested case hearing.

**OPPORTUNITY FOR A CONTESTED CASE HEARING.** After the deadline for public comments, the Executive Director will consider the comments and prepare a response to all relevant and material, or significant public comments. Unless the response to comments, and the Executive Director's decision on the application, will be mailed to everyone who submitted public comments or who requested to be on a mailing list for this application. If comments are received, the mailing will also provide instructions for requesting a contested case hearing or reconsideration of the Executive Director's decision. A contested case hearing is a legal proceeding similar to a civil trial in a state district court.

**TO REQUEST A CONTESTED CASE HEARING, YOU MUST INCLUDE THE FOLLOWING ITEMS IN YOUR REQUEST:** your name, address, phone number; applicant's name and proposed permit number; the location and distance of your property/activities relative to the proposed facility; a specific description of how you would be adversely affected by the facility in a way not common to the general public; a list of all disputed issues of fact that you submit during the comment period, and the statement "I/we request a contested case hearing." If the request for contested case hearing is filed on behalf of a group or association, the request must designate the group's representative for receiving future correspondence; identify by name and physical address an individual member of the group who would be adversely affected by the proposed facility or activity; provide the information discussed above regarding the affected member's location and distance from the facility or activity; explain how and why the member would be affected; and explain how the interests the group seeks to protect are relevant to the group's purpose.

Following the close of all applicable comment and request periods, the Executive Director will forward the application and any requests for reconsideration or for a contested case hearing to the TCEQ Commissioners for their consideration at a scheduled Commission meeting.

The Commission may only grant a request for a contested case hearing on issues the requestor submitted in their timely comments that were not subsequently withdrawn. If a hearing is granted, the subject of a hearing will be limited to disputed issues of fact or mixed questions of fact and law relating to relevant and material water quality concerns submitted during the comment period.

**EXECUTIVE DIRECTOR ACTION.** The Executive Director may issue final approval of the application unless a timely contested case hearing request or a timely request for reconsideration is filed.
